PROFESSIONAL SUMMARY

Software Engineering student specializing in Artificial Intelligence and Machine Learning with strong expertise in Data Structures, Algorithms, and Computer Vision. Experienced in developing real-time machine learning applications using Python, OpenCV, and Deep Learning techniques. Proficient in C++, SQL, and web technologies. Passionate about building scalable, efficient, and impactful software solutions.

TECHNICAL SKILLS

Programming Languages: C++, Python, Java, SQL

Web Development: HTML, CSS, JavaScript, React

Machine Learning & AI: OpenCV, Scikit-learn, Deep Learning, Computer Vision

Core Concepts: Data Structures & Algorithms, OOP, DBMS

Tools & Platforms: Git, GitHub, VS Code

PROJECTS

Virtual Study Assistant

- Developed a Python-based virtual assistant for study planning and task management .
- Built an interactive GUI using Tkinter for better user experience .
- Implemented automated reminders and scheduling system to improve productivity .
- Designed features to manage daily and weekly study plans efficiently .

Hand Sign Language Detection System

- Built a real-time sign language recognition system using Python, OpenCV, and Deep Learning .
- Achieved high accuracy (~90%) in gesture classification using image processing techniques .
- Applied preprocessing methods such as skin color segmentation and background subtraction .
- Converted hand gestures into text and speech output for accessibility support .
- Designed an intuitive interface for assisting speech-impaired individuals .

AI Dog Breed Detection & Care Assistant *(Add this if completed)*

- Developed an ML-based system to identify dog breeds from images
- Integrated a chatbot to provide personalized pet care guidance
- Used computer vision and classification models for accurate predictions

EDUCATION

Bachelor of Technology (CSE - AI & ML)

Technocrats Institute of Technology (Excellence)

2022 – 2026

CGPA: 7.89

Intermediate (10+2)

St. Paul Senior Secondary School

2019 – 2021

Marks: 62%

CERTIFICATIONS

IBM Certification in Data Science using Python

IBM Certification in Machine Learning

ACHIEVEMENTS

Solved 600+ Data Structures & Algorithms problems on CodeChef

Solved 50+ problems on LeetCode, focusing on optimization and logic building

RELEVANT COURSEWORK

Data Structures & Algorithms

Object-Oriented Programming (OOP)

Database Management Systems (DBMS)

SOFT SKILLS

Problem Solving

Teamwork

Leadership

Time Management

Critical Thinking

LANGUAGES

Hindi (Fluent)

English (Fluent)

EXPERIENCE

Fresher | Open to Internship Opportunities
